

Macrete are one of the few truly independent precast concrete manufacturers within the United Kingdom and Ireland. Having over thirty years experience in the design and manufacture of a wide range of concrete products and systems, Macrete are established at the forefront of the precast concrete industry.

Macrete supply a wide range of agricultural products using a superior distribution network. Macrete successfully export their agricultural products anywhere in the UK and Ireland.

The majority of clients that work with Macrete do so on a repeat basis and their satisfaction is the fundamental objective of a strong family run business.
