

KEENAN®

an **Alltech** company

Orbital Spreader

The KEENAN Orbital Spreader is a versatile heavy duty spreader. Capable of high work rates, trouble free operation and with a wide range of applications for farm and commercial waste.

Why choose a KEENAN Orbital Spreader?

HIGH OUTPUT & PRECISION SPREADING

Large capacity, even spread over 20m and short emptying time, between 1.5 to 5 minutes

SPREADS ALL TYPES OF WASTE

Strawy muck, industrial sludge, farmyard & poultry manure

ACCURATE CONTROL

Variable speed of rear door gives full control and consistent application rates

MINIMAL GROUND COMPACTION

Large wheels and weight transfer of materials from rear axle towards drawbar ensure minimal ground compaction

RELIABLE AND EASE OF MAINTENANCE

Heavy - duty single drive chain, hardened wear plates and parts have no contact with waste materials

STANDARD EQUIPMENT

Slurry door, hydraulic brakes and electronic boost for faster load compaction
